Trilith Contracting Inc. will be undertaking the demolition of the existing pavilion on-site, including the removal of structures and restoration of the area. To ensure safety and minimize inconvenience, the following work plan outlines the schedule and activities involved.

Schedule of Activities: September 30th – October 15th

Step One:

Removal of Steel Roof Structure - The steel roof will be carefully dismantled and removed.

Step Two:

Demolition of Timber Frame Structure - The timber frame structure of the pavilion will be demolished.

Step Three:

Excavation of Concrete Footings - Concrete footings will be excavated and removed. The existing asphalt surface will be removed.

Step Four:

Site Restoration:

The asphalt area will be reinstated with topsoil and seed. Any disturbed areas will be restored.

Safety Measures

- **Site Access:** The demolition area will be securely fenced off. Access will be restricted to authorized personnel only.
- **Signage:** Clear signage will be posted around the site to inform the public of restricted areas and safety precautions.
- **Monitoring:** Trilith staff will continuously monitor the site to ensure public safety and compliance with safety regulations.
